

Fund-Raising Vendor Information

Typical questions and answers:

Request to be added to the district's vendor list

The district does not maintain an approved vendor list for fund-raisers. The individual schools select the vendors to meet their needs subject to the district's [STUDENT FUND-RAISING ACTIVITIES](#) policy and regulation.

School secretaries enter the vendors needed to place their schools' orders.

Request to contact schools

Promotional literature may be mailed to schools but sending unsolicited faxes is not permitted. Fund-raisers may enter schools by appointments only; the staff generally does not have time to discuss fund-raising.

Most of the fund-raising activities in the schools are run by either the school's PTA or boosters. It is difficult to displace successful fund-raisers without being familiar with the organizations that sponsor them. Check the schools' web sites to learn more about their activities.

Prerequisite experience

Fund-raisers need references for having successfully completed at least two fund-raising activities before planning to run any fund-raising activities for the district's schools.
