About the 2009-2010 Report to the Community

Jeffco Public Schools is a community partnership dedicated to positively impacting society by providing our children a quality education.

This Annual Report was created to provide an overview of the work we have done together during the 2009-2010 school year, and to report on those areas required by law.

Our Goals All students graduate

Our Mission

To provide a quality education that prepares all children for a successful future.

Our Values •

Integrity Valuing People Teamwork Exemplary Performance

prepared for continued learning and the world of work in the 21st century.

> All employees are accountable for a high performing organization

SUPERINTENDENT'S MESSAGE

Approximately 11 percent of all the K-12 students in Colorado attend a Jeffco school. That's an amazing statistic and it emphasizes what an important mission we have. Providing educational excellence to more than 84,000 students is a challenge so great that it requires the support of the entire community. As I look back on the accomplishments of the 2009-2010 school year, I am gratified by the examples of how many people stepped up and said, "this is my school district and I want to help." This annual report is a tribute to the Jeffco Public Schools' family — those parents, teachers, staff and community members — who contributed to helping our children learn and grow.

It is truly a community partnership that makes our schools and our students successful. It was our collective power that helped the district move forward during these difficult economic times. Our test scores continued to be strong, our graduation rate increased, our students excelled and our operation costs were trimmed. We did this together. My hope is that this annual report will help everyone better understand all we have accomplished, and realize that Jeffco Schools belongs to the community. Its success reflects on all of us. I look forward to working with you in the year ahead.

Dr. Cindy Stevenson

Cynthia Stevenson

Superintendent

It is truly a community partnership that makes our schools and our students successful.

THE JEFFERSON COUNTY BOARD OF EDUCATION

School board members are a key link to the district's community partnership. The Board works closely with parents, education professionals, the state legislature and community members to create the educational vision we have for our students.

The five members of the Jefferson County Board of Education are elected by voters to four-year terms and serve without pay. They are ordinary people who have an extraordinary sense of commitment to education and civic responsibility.

The Board is a policy making body with powers and duties set by state law. Board members are responsible for creating policy related to educational planning, staff, school facilities, finances and communications. Board meetings are open to the public unless otherwise specified. Agendas and minutes of Jefferson County Board of Education meetings are available for public review on the Board's Web page at: www.jeffcopublicschools.org/board/.

During the 2009-2010 school year, the following people worked on behalf of the county's children as members of the Board of Education:

Jefferson County School
Board members feel
strongly that they can
best fulfill their mission to
shape education policy
when they understand the
needs of the community.
They support schools and
participate in civic and
neighborhood activities
in addition to the regular
board meetings, which are
open to the public.

Parents, students and members of the community are encouraged to make their voice heard by contacting the Board.

Dave Thomas
President
2009-2010

Robin Johnson Secretary 2009-2010

Jane Barnes 1st Vice President 2009-2010

Paula Noonan Treasurer 2009-2010

Laura Boggs 2nd Vice President 2009-2010

STRATEGIC PLANNING

Jeffco Public Schools has a Strategic Plan that makes student achievement the top priority and clearly spells out the steps to achieve the desired future for our schools.

Creating a dynamic and responsive plan requires input from people with diverse expertise and varied viewpoints. The district's Strategic Planning Advisory Council (SPAC) is composed of Board of Education members, district and citizen leadership, representatives from each employee association, area accountability representatives, as well as citizen and parent leaders from a variety of Jefferson County stakeholder groups. The council helps the district develop the plan, and throughout the year, provides a thoughtful and independent look at district operations.

SPAC Accomplishments for 2009-2010:

- Organized a dialogue between school accountability representatives, school principals, and SPAC members in order to share experiences and gain deeper insight into school and district decision-making processes.
- Provided input and facilitated greater community understanding of the Strategic Plan and district budget. Identified Strategic Plan achievement gaps and discussed the district's systemic approach for dealing with those gaps.
- Sponsored a discussion on promoting excellence in teaching, which included compensation, evaluation and dismissal policies with an in-depth discussion of pay-for-performance with members from the district's Compensation Study Team.
- Sponsored a conversation with former State Representative Rob Witwer and former State Senator Sue Windels regarding the state of K-12 education in Colorado.
- Served as a sounding board for the Board of Education and district leadership on relevant district topics.
- Explored district educational data, topics and trends including the mill levy and bond elections, budget proposals, the leadership role of school principals and how that impacts student achievement, and the new state growth model for accreditation.
- Reviewed and provided feedback on the Annual Report to the district's communities, based on requirements in Colorado Accreditation Rules and the No Child Left Behind Act.
- Provided membership on the district's Charter School Review Committee,
 Parent/Family Involvement Committee and Religious Holidays Committee.

For more information about SPAC see: www.jeffcopublicschools.org/community/spac.html

OUR PARTNERS IN EDUCATION

When You Educate a Child You Make the Community Stronger

There are thousands of Jefferson County residents who share the belief that when you educate a child you make the community stronger. These people have given the gift of their time to work in our schools, raise funds, attend meetings and advocate for education. There are so many wonderful examples of how the community supports Jeffco schools that it is impossible to cover them all in the pages of this report. Here are a few we would like to highlight:

PTA Members Support Parent Partnerships

Michelle Winzent

When Michelle Winzent graduated from Pomona High School, she thought her days in K-12 schools were over. But when her two children became students, Michelle found herself walking through the doors of a Jeffco school once again and in her heart, she realized that she had never really left.

"I have a lot of Jeffco pride and I wanted to be a part of making this the best school district in Colorado whether it is at my local school or at the county level," she said.

Winzent is the current president of the Jefferson County PTA. During her tenure she has increased parent participation in numerous events and has been one of the driving forces behind changing school nutrition at the local and state level. She also serves on many district-community committees and believes that parent partnership is vital to student success.

"Parent involvement does make a difference," said Winzent. "My question is, isn't your child worth it?"

I have a lot of Jeffco pride and I wanted to be a part of making this the best school district in Colorado...

"All parents have a dream for their child and how parents become an integral part of that dream is through the partnership they have with their child's school," said Lynn Huizing.

And she should know; Huizing has spent 25 years and thousands of hours partnering with Jeffco Schools through a variety of volunteer jobs. She is currently the president of the Colorado PTA, and has a rich resume of unpaid positions she has held with schools and the district. The mother of three grown daughters who all attended Jeffco schools, Huizing is passionate about encouraging parents to become involved.

"It's important for schools to provide a welcoming environment where parents feel valued and it's important for parents to advocate for their own child," she said. "When families are involved in their children's learning, both at home and school, their children do better in school."

It's important for schools to provide a welcoming environment where parents feel valued...

Marta Murray

Marta Murray's numbers are impressive — 50,000 hours spent volunteering in different capacities for Jeffco schools; more than 20 years serving on district committees; 35 years of connection with Jeffco schools. As a Lakewood High School graduate and mother of two former Jeffco students, Murray has devoted much of her life to public education.

"It is important for parents and community members to be involved with the schools to bring a different perspective to committees. It is also important to be informed and knowledgeable about the various needs of students, parents and teachers in the district," she said.

Over the years, Murray has built a remarkable resume of service. She has been involved with PTA on the local, state and national levels and is currently the executive director of Youth Leadership Jefferson County, a program designed to develop the community leadership potential of Jeffco high school students.

For Murray, her partnership with Jeffco schools is a labor of love.

"It is my gift. It has truly been my pleasure to be able to volunteer in this district," she said.

It has truly been my pleasure to be able to volunteer in this district.

OUR PARTNERS IN EDUCATION continued

Math Kits for Every Student

Pam Feely is an accomplished accountant.

A knowledge of math has served her well over the years and she wants all students to

be able to benefit from math

students by donating protractors to a school supply drive benefiting Jeffco Public Schools.

the way she has. She started a project to help

"Math is the number one tool. We use math in so many aspects of our lives and kids don't realize how much they will use it in their future," said Feely. "Plus, I'm a CPA, so math was a natural fit."

After her first donation, she located a reasonably priced math kit that included a protractor, compass, pencil, eraser, sharpener and rulers. She purchased 100 kits with her own money and once again, donated them to a few classes at a Jeffco school. The response was so positive that Pam knew she wanted to help more kids. She reached out to the Belmar Optimists Club which helped raise money to buy math kits for the entire school in 2006.

Five years later Pam has turned her math kit project into a major fundraising campaign. The clients of her accounting firm have stepped forward, along with the Kinder Morgan Foundation, a non-profit that focuses on youth, education and the arts, the Jefferson Foundation, the district's support organization, and many local businesses. This past year, Pam also distributed math kits to the Adams 12 and Adams 14 School Districts and Escuela Guadalupe.

Pam Feely is truly a partner in education.

Partnership Builds a Place for Boys and Girls

The 100 or so kids who fill the gym of the Boys & Girls Club at O'Connell Middle School are a loud and boisterous bunch. They are, after all, in a place where they can be kids.

The club, which serves one of Lakewood's most economically challenged areas, was made possible through a partnership between Boys & Girls Clubs of Metro Denver, Jeffco Public Schools and community leaders including District Attorney Scott Storey, Lakewood Mayor Bob Murphy, Jefferson County Commissioner Kathy Hartman, Lakewood Police Chief Kevin Paletta, Lakewood City Councilwoman Sue King and Fire Chief Doug McBee.

Together, these agencies rallied the community to raise funds and open the doors to the county's first Boys & Girls Club.

"The entire community benefits from Boys & Girls Clubs. We are fortunate to have an opportunity to make this investment in our children, helping to enable them to reach their full potential," says Storey. "Through collaboration, commitment and community support, we are making this dream a reality."

It Takes a Village to Change a School

The challenge – transform old classrooms into an inviting commons area where students could gather at Arvada High School. The dream – create a space that would help students feel a sense of community. The team – 24 members of the 2010 Leadership Arvada Class and the high school's student council. The experience – priceless!

Leadership Arvada, a community group made up of current and future leaders from a wide variety of backgrounds, organized fundraising efforts

including obtaining a grant for the project from the City of Arvada Matching Funds Program. The community stepped up with donations, organized a spaghetti dinner, sold restaurant certificates and dog collars. Volunteers included the Arvada Fire Department Station 4 Shift C which pitched in with demolition work, along with Tim Habben of LOA Architecture who contributed design services. A generous donation came from Dan Cupit, owner of Professional Roofing and Exteriors, who contributed more than \$40,000 in equipment and labor.

Everyone involved contributed to the success of their neighborhood school, helping students gain a sense of pride and become more engaged in their school.

OUR PARTNERS IN EDUCATION continued

Our partners in education also include:

 The Jefferson Foundation, one of Colorado's oldest K-12 education foundations, promotes public and private investment in Jeffco schools. The Foundation has provided over \$8 million in program support since 1983.

Keller Williams Real Estate. The firm adopted Mortensen Elementary School.
 Employees of the business put together 420 summer work packets, planted beautiful flowers at the school and prepared curriculum items to support classrooms.

Broadridge, a global financial services support company. In the past two years, the
employees of Broadridge have donated almost \$4,000 in school supplies, employee bonuses and
cash donations to Pennington Elementary School. Employees also volunteer at the school every week
to read to students, help with math and fill food bags for the Feed the Future program.

- Lakewood Foothills Rotary Club. The civic group donated 250 Webster's New World dictionaries to Jeffco students.
- The Arvada Wheat Ridge Service Ambassadors for Youth organization. The combined efforts of local civic leaders created the organization, which has provided more than 215 college scholarships for Jeffco students who have overcome adversity.
- Exempla Health Care and Propp Realty. The company employees wanted to make a difference this year for Jeffco's Molholm Elementary School. They gave all 435 students new clothes.

- Lockheed Martin. Engineers from the company have spent hundreds of hours designing, building and installing the planet walk kiosks at both the Mt. Evans and Windy Peak Outdoor Lab Schools.
- Parents, grandparents and guardians. There are
 thousands of parents, grandparents and guardians
 in Jefferson County who deserve recognition.
 They are busy people leading stressful lives, but
 their children come first. They make the extra
 effort to see that their children are prepared for
 school each day and are ready to learn. They
 somehow find the time to attend parent-teacher
 conferences and they have a partnership with
 their child's teacher. We thank them for their
 understanding and support.

SCHOOL YEAR HIGHLIGHTS

Jeffco Students are Succeeding

Academic Achievement Highlights

- Jeffco students continue to outperform the state in all grade levels and content areas on CSAP. In math at the secondary level, Jeffco students have outperformed the state by seven or more percentage points over the last five years. The percent of fifth-grade students proficient or advanced in science increased by 6 percentage points from last year and is 10 percentage points higher than the state. Compared to last year, students eligible for free/reduced lunch made reading gains in grades 4 through 9 and math gains in grades 4, 5, 9, and 10.
- All Jeffco schools were accredited by the Colorado Department of Education.
 Eighty percent of Jeffco neighborhood and charter schools met or exceeded expectations on the state performance indicators.
- The Colorado Growth Model, a measurement that shows how students are
 progressing over time, as measured against the academic achievement of similar
 students on CSAP, shows that our district meets or exceeds the state benchmark
 at the 50th percentile in reading and math for all years the data has been reported
 by the Colorado Department of Education (2007, 2008, 2009 and 2010). See
 additional information on page 13.
- Approximately 5,900 students completed Advanced Placement (AP) classes during
 the year. The AP exam allows students an opportunity to earn credit or advancedplacement at most of the nation's colleges and universities. Scores of "3" and
 above often convert to college credit.
- The district's International Baccalaureate Programs (IB) offered accelerated learning opportunities for more than 1,100 students at Lakewood High School and Patterson International School. Seven additional Jeffco schools have applied for IB certification.

For more than 70 years, the
Boettcher Foundation has awarded
college scholarships to Colorado's
brightest and most dedicated
students. During the 2009-2010
school year, four Jeffco students
were named Boettcher Scholars:
Michael Yang, Lakewood High
School, Tanner Ryan, Jefferson
Academy, Olga Slyusar, Arvada High
School, Rachel Walters, Ralston
Valley High School.

Michael Yang

Tanner Ryan

Rachel Walters

Olga Slyusar

• Lakewood, Evergreen, Conifer and D'Evelyn high schools landed on a very impressive list -- *Newsweek's America's Best High Schools* list. Each year, *Newsweek* picks the best high schools in the country based on how hard school staffs work to challenge students with advanced-placement, college-level courses and tests. Only 6 percent of all the public schools in the U.S. made the list.

• Education Week Magazine ranked Jeffco fifth in the nation for having the highest graduation rates among large school districts. During the 2009-2010 school year, it was announced that the previous year's graduation rate increased to 81.3 percent, an increase of 4.2 percentage points over the year before.

• Stein Elementary School was recognized as a Title I "Distinguished School of the Year" by the Colorado Department of Education. Stein, a high-poverty school, increased the percentage of students eligible for free and reduced lunch that are at or above the proficient level on reading and math CSAP from 80.1 percent in 2008 to 88.9 percent in 2009.

SCHOOL YEAR HIGHLIGHTS continued

Athletics and Activities Highlights

 Students from Lakewood High School won the Colorado Bar Association's State Mock Trial Championship.

- Track and field awards were captured by many Jeffco students this year. Scott Fauble, Wheat Ridge High School, Trevor Evanson, Golden High School, Mark Weeks, Arvada High School and Bear Creek High School's Vinnie Delmonico won first place in state track and field competition.
- Wheat Ridge High School's girls' soccer team won the state championship as did the school's 4A softball team.
- Evergreen High School celebrated three winning athletes, Kelsey Valdez
 won gymnastics' first place award in the vault, David Graebel won the boy's skiing first place award in Giant
 Slalom and Lexie Malazdrewicz took first place in girls' swimming in the 200-yard Individual Medley.
- · Arvada High School's Eric May captured the state's 200-yard Individual Medley swimming title.
- Dwight Howes, a wrestler from Arvada High School, was the only athlete from Colorado selected to compete
 in the FILA Cadet Pan Am Games in Brazil. Tony Pena, Chatfield High School, Gage Boyd, Pomona High
 School and Travis Himmelman, Conifer High School, took first place in their weight class in state wrestling
 championship competition.
 - Green Mountain High School students Kristin Bayley and Lane Brugman, won the 2010 National ACE (Architecture, Construction & Engineering) Design Competition held in Washington, D.C.
 - The Pomona High School Marching Band won first place in the 4A classification at the Colorado Bandmasters Association State Parade Championships. Bear Creek High School took first place in the Scholastic Concert World class at the Rocky Mountain Percussion Association State Championships.

Civic Responsibility Highlights

- Three Jeffco schools were recognized by the American Diabetes
 Association's (ADA) 2009-2010 Safe at School Superstars program.
 Oberon Middle School, Kyffin and Devinny elementary schools received honors for their work to support students with diabetes.
- Empty Bowls, an annual event sponsored by students from Arvada Middle School, North Arvada Middle School, Russell, Foster, Hackberry Hill, Thomson, Swanson, Peck, Lawrence, Fitzmorris and Secrest elementary schools raised \$5,000 for the Arvada Food Bank.
- Over the past six years, students at McLain Community High School have donated over 2,000 hours and collected about one million pounds of food for the Food Bank of the Rockies.

- Students at Columbine High School gave the gift of life by donating 190 units of blood to the Bonfils Blood Center. The school was recognized for leading the state in an innovative program that allows minors to donate blood.
- A class from Deer Creek Middle School organized a turkey drive for the Denver Rescue Mission, collecting 65 turkeys for the hungry. Students at West Jefferson Elementary School supported their community by filling the shelves of the Mountain Resource Center with 1,500 pounds of food. Columbine area schools collected more than 2,000 pounds of food for the Share the Love Food Drive.

Porake Middle School social studies students received a \$50,000 grant for an educational trip to Washington, D.C., as a result of their work with senior citizens. Students adopted Mountain Vista Nursing Home, volunteering their time and raising nearly \$5,000 for the home.

Jeffco Teachers and Staff Receive Recognition

 Superintendent Cindy Stevenson was selected as Superintendent of the Year by the Colorado Association of School Executives.
 She went on to be named one of the top four superintendents in the nation by the American Association of School Administrators and was honored at the National Conference on Education.

- Arvada West High School English teacher Jack Martin was recognized at the 2009 Boettcher Foundation Recognition Awards Program. He received a \$10,000 grant to use toward a special program or school project.
- Salli Ratts, who works in the district's Printing and Graphic Design Department, won the 2009 International Bluegrass Music Award for Best Graphic Design for her work on Steve Martin's The Crow: An Evening of Bluegrass and Banjo CD cover and promotional items.
- Elk Creek Elementary kindergarten teacher Deb Marinaro received a Jared Polis Foundation Teacher Recognition Award. Marinaro received a \$1,000 grant.

Our Special Heroes

On Feb. 23, 2010 our worst nightmare occurred; a stranger shot two young students in front of Deer Creek Middle School.

The staff of Deer Creek had just completed training on how to respond to an emergency at their school. Their quick response saved lives. There were many heroes that day, but teachers Dr. David Benke, Norm Hanne and Assistant Principal Becky Brown subdued the shooter and protected their students. We salute them.

6 Their quick response saved lives. 9

SCHOOL YEAR HIGHLIGHTS continued

 The Jeffco community wants an educated workforce that can compete in the 21st Century. In response, the district has installed SMART Boards™, video and computer upgrades in many classrooms. The district has partnered with Google and Blackboard to create new collaboration tools that help students learn new technologies. The district was ranked No.1 by the Center for Digital Education "for creative and innovative accomplishments...in support of 21st century education."

Jeffco Schools and Programs are Progressive

- Jeffco continually seeks to improve teaching methods. We strive to provide
 high quality instruction based on scientific, research-based strategies. We
 understand that not all students learn the same and have implemented the
 nationally recognized program, Response to Intervention (RTI). The program
 provides frequent monitoring of student progress, early intervention when
 students need help, identification of appropriate instruction and a school team
 approach to education.
- Jeffco goes green. In addition to the recycling programs at our schools and
 offices, the district's Food Services Department stepped up to protect the
 environment by returning to plastic trays in the elementary schools instead of
 Styrofoam plates and implemented a recycling program, reducing waste from all
 the milk cartons.
- A new renewable energy initiative, installed 100-kilowatt solar panel systems at 30 schools. The panels will generate about half the electricity for an average elementary school, saving an estimated \$1 million in energy costs over the next 20 years. The program had no initial costs due to renewable energy incentives.
- Unhealthy ingredients are disappearing from Jeffco's school lunches. Flavored
 milk and yogurt has been reformulated to leave out high fructose corn syrup.
 Whole wheat products with no additives or preservatives are on the menu and
 canned veggies have been replaced with fresh or frozen. Local products are now
 favorites of Jeffco students.
- As part of the Jeffco Schools Emergency Response Plan, the district has
 adopted the Standard Response Protocol, a program that uses common
 language between students, staff and first responders when describing actions
 to be taken in the event of an emergency. The program will improve classroom
 response time to an emergency and help ensure student safety.

 Jeffco is committed to supporting a diverse student body and staff. To further this goal, the Community Diversity Advisory Council was formed. The Council is a network of parents, staff and community members, who advise the district toward achieving cultural proficiency.

MEASURING SUCCESS

In 2009, state lawmakers passed The Education Accountability Act to improve the way we measure school and student success. The law was created to align conflicting accountability systems, more accurately measure achievement and create a common understanding of school, district and state educational performance.

The cornerstone of the new law is the Colorado Growth Model. The Growth Model compares each student's performance to students in the same grade throughout Colorado who had similar scores in past years on the Colorado Student Assessment Program (CSAP) tests, and calculates a Student Growth Percentile. For example, if the student grew academically as much, or more, than 60 percent of his or her peers, the student would have a 60th Growth Percentile. For schools, CDE reports the median growth percentile. The chart below shows the district's median growth percentile for three years in CSAP Reading, Writing and Math. Individual school growth data can be found on the Colorado Department of Education's website at: www.schoolview.org.

FRL=Free and Reduced Lunch/economically disadvantaged as determined by students qualifying for the Free and Reduced Lunch Program. IEP=Individual Education Plan for student with disabilities.

ELL=English Language Learner.

Bold type indicates the segment meets or exceeds state median growth percentile of 50 and higher.

MEASURING SUCCESS continued

Colorado Student Assessment Program

CSAP is given to public school students in grades three through 10. Depending on the grade, CSAP tests students' knowledge in reading, writing, mathematics and science compared to the Colorado Model Content Standards. The assessment program includes multiple choice, and short and long essay questions. Schools use CSAP to determine effectiveness of instruction and evaluate academic progress.

What's an option school? Governed by the district's Board of Education, option schools select a particular approach to teaching and learning that may not normally be found in neighborhood schools. Students attending option schools that do not offer a particular sports program may access that program at their neighborhood school.

School and District Accreditation

The Jeffco Public School District is accredited by the Colorado Department of Education. The district uses the state's new School Performance Framework (SPF) as the basis for assigning schools to accreditation categories created by the Education Accountability Act of 2009. The District Performance Framework assigns to each district one of five accreditation categories:

- Accredited with Distinction: The district meets or exceeds statewide attainment on the performance indicators and is required to adopt and implement a Performance Plan.
- Accredited: The district meets statewide attainment on the performance indicators and is required to adopt and implement a Performance Plan.
- Accredited with Improvement Plan: The district is required to adopt and implement an Improvement Plan.
- Accredited with Priority Improvement Plan: The district is required to adopt and implement a Priority Improvement Plan.
- Accredited with Turnaround Plan: The district is required to adopt and implement a Turnaround Plan

For 2009-2010, CDE has designated Jeffco Schools as a district that is Accredited with the highest level plan: Performance. The district earned 70 percent of the District Performance Framework points.

The School Performance Framework assigns to each school one of four plan types:

- Performance Plan: The school meets or exceeds statewide attainment on the performance indicators and is required to adopt and implement a Performance Plan.
- · Improvement Plan: The school is required to adopt and implement an Improvement Plan.
- · Priority Improvement Plan: The school is required to adopt and implement a Priority Improvement Plan.
- Turnaround Plan: The school is required to adopt and implement a Turnaround Plan.

For 2009-2010, 80 percent of schools in the district have been designated with a Performance Plan. Approximately 95 percent of our schools are in the top two categories of school performance.

Accreditation Plan Type	Percent of Schools	Description of Plan Type
Performance	80%	School meets or exceeds state performance targets
Improvement	14%	School is approaching or meeting state targets
Priority improvement	5%	Not meeting state targets
Turnaround Plan	1%	Below state targets

(Note: This data does not include schools designated as Alternative Education Campuses. These schools serve 95 percent part-time students, students with disabilities, and/or students considered "at-risk" per Colorado Department of Education definition.)

The chart on the next page shows the accreditation status of each Jeffco school. Schools with Turnaround Plans have five years to improve or face possible closure. The district must file plans with the Colorado Department of Education to indicate that schools are on the path to continuous improvement.

Adequate Yearly Progress

The federal government also measures the achievement of individual schools, school districts and state education departments. Adequate Yearly Progress, or AYP, created by the No Child Left Behind Act, applies to districts that receive funds under NCLB Title I (federal funds for low income students) and are required to meet specific academic goals in reading and math each year as measured by the Colorado Student Assessment Program (CSAP). To make AYP, a district must meet 100 percent of its targets for participation and performance in reading and math assessments for all applicable subgroups of children (race/ethnicity, economically disadvantaged, students with disabilities and students with limited English proficiency). The table below shows how many of the AYP indicators individual schools met during the 2009-2010 school year.

Jeffco Schools Accreditation and AYP Status

Title I schools on school improvement (that have not met AYP determination for two consecutive years) are indicated in bold.

Additional information about Accreditation and AYP, including individual school profiles, can be found on the Colorado Department of Education's website at: www.schoolview.org.

The National Assessment of Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP) is the only nationally representative assessment of what America's students know and can do in different subject areas. Its two major goals are to measure student achievement and to report change in performance over time. NAEP provides results for the nation as a whole and for the states separately. Information about Colorado NAEP can be found on the Colorado Department of Education's website at: http://www.cde.state.co.us/.

Annual Measurable Achievement Objectives for English Language Learners

Because Jeffco Public Schools receives federal Title III funds, we must meet Annual Measurable Achievement Objectives (AMAO) for English Language Learners. Details of these results can be reviewed at: http://www.cde.state.co.us/.

ACT

The ACT is traditionally a college entrance examination. Results are scored on a scale of 1 to 36. Scores for Jeffco students who took the test for college entrance are shown in the table entitled: College-Bound students. See the table below to compare Jeffco students to the national average score.

АСТ	: 2009-2010 C	ollege-Bound	Graduates
010	District	State	Nation
20	21.4	20.6	21.0

Colorado law also requires all high school juniors to take an ACT test designed especially for Colorado students to measure progress in English, reading, math and science.

ACT: Colorad	o High Schoo	l Juniors
	District	State
2009	20.8	20.0
2010	21.9	20.0

For details on scores by demographics see www.schoolview.org.

DISTRICT PROFILE

Jeffco students stand as an example of the community's commitment to educational excellence. They speak many languages and represent many cultures. They have gone on to be successful scientists, authors, political leaders and entrepreneurs. They are the future and strength of the community.

Total Student Enrollment: 84,643

The Dropout Rate "is the percentage of students in grades 7 through 12 who drop out of school in a given year between July 1 and June 30 and have not returned to an educational environment on or before the end of the school year or June 30."

Sources: Jeffco Public Schools and the Colorado Department of Education. For additional information see: http://www.jeffcopublicschools.org/student_records/enrollment_stats.html and http://www.cde.state.co.us/cdereval/rv2009GradLinks.htm

^{*} Figures as of 2008-09. The Graduation Rate "is a cumulative or longitudinal rate which calculates the number of students who actually graduates a percent of those who were in membership over a four-year period (i.e., from Grades 9-12) and could have graduated with the current graduating class."

DISTRICT PROFILE continued

Community Support Provides Choices

The community has supported the effort to provide educational options so that all parents have the power to select a program that best meets their child's needs. The district's choice enrollment process allows any student in the county to attend any Jeffco school that has space available. Jeffco students can select from traditional neighborhood schools, charter schools run by private groups, option schools with a particular educational focus, online education, home schooling and special programs. We want parents and students to be able to make the choices that will lead to educational success.

- · 91 elementary schools
- 3 K-8 schools
- · 19 middle schools
- · 17 high schools
- · 10 option schools
- · 16 charter schools
- · 1 online school
- · 2 outdoor laboratory schools
- Jeffco Public Schools also offers
 numerous special schools and programs that
 are an important part of our educational community.

Target Average Class Size for 2009-2010

24:1 kindergarten

20:1 first, second & third grade

24:1 fourth grade

28:1 fifth & sixth grade

*28:1 middle & high school

*Class size varies depending upon subject.

Good Teachers Make all the Difference

There is compelling research that shows the classroom teacher is the single biggest factor affecting students' academic growth. We don't need research to tell us that teachers do have a profound impact on our community. They are our friends and neighbors and the people we trust our children to on a daily basis. The tables below provide the statistics which demonstrate that Jeffco Public School teachers are highly educated, but what the data doesn't show, is that our teachers are dedicated and care about the future of children.

Professional Qualifications of Teachers

Professional Qualification	% of Teachers
Bachelor's Degree Only	41.7%
Master's Degree	56.7%
Ph.D.	1.1%

Teacher Licenses

Licensed	% of Teachers
Initial	14%
Emergency	0%

You can find out more information about teachers' qualifications on the Colorado Department of Education's SchoolView Web page at: www.schoolview.org

Jeffco Teachers

The federal No Child Left Behind (NCLB) legislation places a strong emphasis on having a highly qualified teacher in every classroom. In general, NCLB defines a highly qualified teacher as one that is fully licensed by the state and endorsed in the subject area and who demonstrates competence in the content areas taught. You can find out more information about teachers' qualifications on the Colorado Department of Education's SchoolView Web page at: www.schoolview.org.

Teachers Highly Qualified in the District

School Year	2005	2006	2007	2008	2009
Percentage Not Highly Qualified	3.64%	0.12%	0.90%	0.99%	0.35%

Classes Taught by Highly Qualified Teachers in the District by High and Low Poverty

	High Poverty Schools ¹	Low Poverty Schools ²	
Percentage in District	99.39%	99.49%	
Percentage in State	96.98%	98.02%	

¹ Schools are ranked from highest to lowest based on their free and reduced lunch eligibility counts. High-poverty schools are the 25% of schools with the highest poverty rate based on 2008 data.

² Low-poverty schools are the 25% of schools with the lowest poverty rate, as measured by free and reduced lunch eligibility, based on 2008 data. Updated data can be found at www.schoolview.org.

DISTRICT PROFILE continued

Jeffco Staff

Jeffco Public Schools is one of the largest employers in the state. Our employees represent a diverse team of education veterans, seasoned professionals and new team members with progressive ideas. Their positions were created to ensure that the children of Jefferson County receive a quality education and to protect their safety and well-being. Many Jeffco employees have children in school - our students are our children too. It's a huge responsibility to educate, nurture and protect more than 84,000 students. As members of the community, we take our responsibility seriously.

The Work Force

In schools:

Figures as of October 2009

The Community Invests in Education

Funding for textbooks, teachers, transportation and everything else that makes a school possible comes from the community. We all are responsible for the quality of our school district. The primary sources for school funding are: local property taxes, state revenue (which primarily comes from taxes) and automobile ownership tax. Each year the state government determines how much of the state's total budget is allocated for education. Colorado's schools receive funding on a per pupil basis. In addition to funds allocated from the state, Jeffco and other school districts receive additional funds via voter authorized mill levy overrides.

As we worked with the community to develop the 2009-2010 school year budget, the primary focus continued to be on student achievement. The goal was to spend carefully in order to maximize the resources that support the classroom. Unfortunately, the district has experienced huge increases in costs for fuel, utilities and insurance. Even with the increases in operations costs, 95 cents of every dollar in the 2009-2010 budgeted was allocated to schools.

Jeffco's Financial Transparency Web page, with a searchable database of expenditures, provides an opportunity for our public to monitor expenditures and to gain a detailed understanding of how public funds are being spent to support student learning. The page can be found at: http://www.jeffcopublicschools.org/finance/. Our website also presents our annual budget, audited financial statements and other finance publications.

The Colorado Department of Education provides financial and budgetary information for Jeffco and other school districts at: http://www.cde.state.co.us/index_finance.htm.

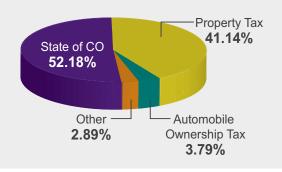

Jeffco's Financial Team wins Recognition

Jeffco Public Schools once again received the Certificate of Achievement for Excellence in Financial Reporting for the Comprehensive Annual Financial Report (CAFR) from the Government Finance Officers Association (GFOA). This represents the 27th year that the district has received the award. This award is designed to recognize and encourage excellence in financial reporting by state and local governments. For the second year in a row, Jeffco's Financial Services Department was awarded the Meritorious Budget Award from the Association of School Business Officials International. The award recognizes the budget team's excellence in the preparation and issuance of the 2009-2010 Jeffco Public Schools annual budget.

Where the Funding Comes From

Total Revenue
Other \$18,809,604
Automobile Ownership Tax\$24,730,646
Property Tax\$268,115,110
State of Colorado\$340,083,668

SCHOOLS ARE AT THE HEART OF THE COMMUNITY

School buildings do more than just provide a location for classes, they are the center of a community, providing recreational opportunities, polling places, meeting rooms and cultural events. Because the use of our schools is changing and our ability to fund new schools and maintain existing buildings is declining, in 2009 the district brought representatives from the entire community — teachers, parents and community members — into the building review process. Approximately 30 volunteers were chosen to serve on a Facilities Usage Committee. They brought good ideas to the table and sought ways to save money and stretch resources. For nine months, they examined enrollment data, facilities conditions, demographics, operational costs and more. Their work culminated in a series of public forums and a report to the Board of Education outlining options to save up to \$5.8 million. The Board of Education elected to consolidate Russell Elementary School with Arvada Middle School creating a new K-8 school at the Arvada Middle School campus. Russell Elementary School was sold to Jefferson County for approximately \$2 million. The facility will be used for a Head Start program.

Jefferson County voters last approved a building bond election in 2004. The district has kept its promise to voters to use this money wisely. Below are highlights of the 2009-2010 projects, which were completed on time and on budget:

• The new 10,700 square-foot Irwin Preschool was completed. It offers four classrooms and a multipurpose room designed for young learners.

 The \$35.5 million Bear Creek High School opened. The project includes a new 252,000 square-foot building that accommodates up to 2,000 students.

 The \$10 million Alameda High School addition was completed providing the community with a new two-story building as part of the first phase of a two-phase construction project.

 The Evergreen community received a \$10 million Evergreen Middle School addition, which increased the student capacity of the building from 420 to 700 students and provided new athletic facilities, art classroom, administrative offices and enhanced security.

 The Johnson Program for at-risk students received a new \$4 million building, replacing a 50-year-old structure that did not meet the needs of the school. The program has been renamed Connections Learning Center.

Citizens' Committee Ensures Building Integrity

Jeffco Public Schools Citizens' Capital Oversight Committee, which is appointed by the Board of Education, helps to ensure that the district's building programs meet the highest standards. The committee also monitors procedures relating to the selection of consultants and contractors, financing issues, and scheduling. They help create a master Capital Improvement Plan, which guides the district's building and improvement projects and provided written reports to the Board of Education.
