

STUDENT ACCIDENT INSURANCE TRIPSTER POLICY (DOMESTIC TRAVEL)

The United States Fire Insurance Company "Tripster" policy is a supplemental medical insurance policy that is available for overnight or extended (including foreign) student travel. To apply for this coverage the school must provide an itinerary of the trip, with the names of the students, volunteers, and chaperones wanting the insurance to participate in the trip.

Risk Management will rate the cost of the coverage based on the number of students wanting coverage and the length of the trip.

There is \$5000 medical coverage per injury, with additional benefits provided for death or dismemberment. There are no restrictions on destination. All trips must be school sponsored and part of the curriculum. For further information on coverage, exclusions, etc., please contact Risk Management.
